

„Transnational Youth in Remembrance - IWC goes digital“

This year we want to try something new from march 25th - 31st, 2021!
Our meeting about remembrance culture will be held **digitally**
and in presence at various places in the world.

In **workshops** you can expand your knowledge of certain topics.
One focus ist he history of Bergen-Belsen, others are placed on the work at the place of residence of delegations.
But you will also have the possibility to work on current political issues like conspiracy ideologies or anti-Semitism.

No one has ever

become free

by giving."

Our **working methods** will be creative in filming, writing and more.
Together with around 50 young people from around the world we will develop strategies against racism and discrimination and set a sign.

Anne Frank

Registration and information:
Moritz Thies, Tel.: +49 (0)5143-1624,
